Seminar Report: seminar ID (e.g. Chatty)

Name of group members

February 4, 2014

1 Introduction

Introduce in a couple of sentences the seminar and the main topic related to distributed systems it covers.

2 Work done

Source code files must be submitted together with this report. Present here any design decision required to understand your submitted code (if any).

3 Experiments

Provide evidence of the experiments you did (e.g., use screenshots) and discuss the results you got. In addition, you may provide figures or tables with experimental results of the system evaluation. For each seminar, we will provide you with some guidance on which kind of evaluation you should do.

4 Open questions

Try to answer all the open questions in the documentation. When possible, do experiments to support your answers.

5 Personal opinion

Provide your personal opinion of the seminar, including whether it should be included in next year's course or not.
